

Call For Papers: Recovery from Covid-19 Effects for Business, Education and Society

Special issue call for papers from [BizEcons Quarterly](#).

Deadline for submissions: **31st January 2021**.

The after-effects of the Covid-19 are detrimental not only to public health systems but to businesses, trade and travel, food and agriculture industries, education, various market types and retail chains, the government, the economy and the society at large (Atkeson, 2020; Evans, 2020; Nicola et al, 2020; Norouzi, de Rubens, Choubanpishehzafar & Enevoldsen 2020; Zhang, Hu & Ji, 2020). Against this backdrop, this special issue of [BizEcons Quarterly](#) endeavors to bring together academic and practitioner perspectives on pandemics. With this call, we seek contributions that analyze and articulate either conceptually, empirically or theoretically some of the key issues emanating from Covid-19 effects and recovery.

Submissions to the journal are made here: [Submissions](#)

For author guidelines, visit: [Instructions for Authors](#)

There are no submission fees, publication fees or page charges for this journal.

Submitted papers will then be subject to a formal process of peer review. The special issue will be published online in **March 2021**.

The topics of interest for this special issue include, but are not limited to:

- Human flourishing in the Covid-19 society
- Marketing communications: successful strategies for the Covid-19 period
- Social media and the Covid-19
- Digital finance for financial inclusion and inclusive growth during the Covid-19
- Consumer behavior during the Covid-19
